

Peace Through Strength & Lower Cost of Living

Dr. Nizam Razack supports working alongside President Donald Trump to end endless wars, stop reckless nation-building, secure America's interests, and restore a foreign policy based on strength, deterrence, and America First common sense.

America should not be policing the world while American families struggle to afford groceries, gasoline, electricity, housing, and everyday essentials.

Weak leadership overseas creates chaos abroad and inflation at home.

Dr. Razack's America First Priorities:

1. End Endless Wars

Support policies that responsibly bring unnecessary foreign conflicts to an end while protecting America's security, military readiness, and strategic interests.

2. Stop Nation-Building

Oppose wasting American taxpayer dollars rebuilding foreign countries while our own:

- Borders remain unsecured
- Infrastructure crumbles
- Veterans need care
- Energy systems need modernization
- Families struggle financially

America comes first.

3. Restore Peace Through Strength

Maintain the strongest military in the world, secure our borders, and project clear deterrence so enemies think twice before threatening the United States.

Strong nations prevent wars. Weak leadership invites them.

4. Unleash American Energy

Support reliable American energy production to reduce dependence on unstable foreign markets and lower costs for working families.

5. Lower Gas Prices

Cheaper energy means lower fuel costs for:

- Families
- Truckers
- Farmers
- Manufacturers
- Small businesses

Lower fuel prices help reduce the cost of nearly everything Americans buy.

6. Fight Inflation at the Grocery Store

When transportation and energy costs fall, Americans should see relief in:

- Food prices
- Consumer goods
- Shipping costs
- Household utilities
- Everyday necessities

7. Put American Taxpayers First

Require stronger accountability and transparency for foreign aid, overseas spending, and international commitments before sending billions more taxpayer dollars abroad.

“Strong borders. Strong military. Strong economy. America First.” — Dr. Nizam Razack
